Hemlock, pine and maple are the natural products of the forests, the former having nearly all been converted into lumber, the latter being left to be bled every spring and its sap rendered in-

to sugar syrup. Though this section is strongly Republican there is a general complaint against the administration and many Republicans say they hope they will have the opportunity to vote for Grover Cleveland in '92. The Soldiers' Home of this State is located here. It is a fine institution and well supported. At present there are about 1,000 inmates.

The public school system is excellent, and the "marms" that teach some of them make a fellow wish he was a boy again. Our town is located on an eminence that gives it a grand view of the surrounding country combining as it were the advantages of country and city life, and the contrast between this place and the one we left in Virginia to come here is as great as between those places made prominent in the book that adorns the center table of so many parlors and the shelves beneath last year's newspaper, and were it not for the long winters we might truly claim residence in Paradise. Does Advertising Pay?

Towellsville, New York.

This is a very important question to busithousands of them who largely advertise and many of them have given their testimony in its favor. If the reader will take up any of the city papers from day to day for years, he will find the columns filled with the announcements of leading business houses. They do not come before the public at long intervals, but regularly, daily changing their advertisements with the variation in their stocks, qualities and prices of goods, thus not only attracting attention to what they have to sell, but arousing the desire of buyers to examine what is offered, thus making customers and popularizing these places of business. This class of men will tell you in this day of competition that it would be impossible to do business or secure anything like an average trade if they did not invite custom may be imagined, then, when the horrible disease by giving in detail a clear statement of Cancer, eating inwardly in such a way that it coul

what they have got to sell. On the other hand, thousands of men who have started in business with fair capital, plenty of push and a knowledge of trade have gone to the wall simply because they "hid their lights under a bushel," in failing to compete with their neighbors in having the buying public know where they were, what they were selling, and what inducements they had to offer. A man may have the best stock of goods in the market, known the inducements he can offer he is sure to drop behind in the race, while his estate in Kent county, Maryland, of sharper neighbor is reaping a rich harvest.

A Day or two ago a colored man of Rockingham county, North Carolina, struck at a cat, when the enraged animal flew at him and fastened its teeth in his wrist. The cat held on so tenaciously that its head had to be severed before its grip relaxed. The man became ill at once and soon died.
