AVIATION SHOW IN BALTIMORE

Aviation as it is today is an infant, just beginning to see for itself. It has been quite a few years trying to get that far.

Maryland is doing it's bit toward the end to further the industry, which has proved itself to be the fastest growing industry of the world. Maryland has a half dozen or more factories that are doing noteworthy deeds. The Glen Martin Plant is producing ships not only for the Army but for the Navy. The Berliner-Joyce Corporation is perfecting pursuit planes for the Army.

Baltimore finds itself fast becoming "The Detroit of Aviation" bringing about an Aircraft Show of it's own. Not only will the products of the Maryland Companies be exhibited but planes from all parts of the United States. Ships are being brought in from the Pacific Coast and all sectional parts of the country. Government Planes, Air Liners, Passenger Planes, Amphibians, Sport models, and model planes are entered. In all about forty planes will adorn the floor space of the Fifth Regiment Armory, in Baltimore during the week of December 9th thru the 14th.

An invitation has been extended to the President and it is expected that he will attend, as will Gov. Ritchie and Mayor Broening, of Baltimore City. So visit Baltimore during the show to help make the show a great success.
