What Kind of Leather Makes THE LONGEST WEARING WORKSHOE?

Two Million Men Say "Wolverine Shell Horsehide!"

KNOW these facts about leather — and you'll always choose Wolverine Shell Horsehide, as millions of men do. The most durable of all leathers is horsehide. No other hide contains that reinforcing shell which smooths off (after the outside skin wears down) and lasts indefinitely. Wolverine uses only Shell Horsehide, hence Wolverines often outwear ordinary shoes two to four times. They stay soft and pliable, the seams don't rip, and you've never seen leather with such resistance to barnyard acids. Yet Wolverines cost no more than ordinary shoes.
