News We can't make ourselves happy by

making others unhappy. \_\_\_\_\_

Now if someone will just invest a "skeeter" exterminator that will really exterminate!

The real problem of the unemploy- | - Christian Science Monitor. ed is that they can not eat until they work, and they can not work until they eat.

Be patient, children! In fifty or sixty years more we shall know who really won the World War. But there need be no doubt as to who will pay for it. You will, my dears!

NO CAUSE FOR ALARM

.

It is hardly surprising that United States Steel cut its dividend. The surprising thing, when you stop to think of it, is that it was still able to pay a dividend that stock-holders in many companies would think exceedingly healthy.

The reduced dividend, we are told, is a reflection of the depression, and proves that it is a bad one. Well, what's new in that? We have known for a long time, that business was bad; we have known, indeed, that it was very bad. Should we become alarmed simply because U. S. Steel has cut its dividend and (so to speak) made the depression official?

Total U. S. Steel earnings for the quarter ending June 30 were only a little short of \$14,000,000. If things were as bad as some calamity howlers try to make us believe, the corporation would have showed a deficit

OF INTEREST TO EDITORS Newspapers needn't feel so bad about errors invited by their haste of going to press. Frequent and glaring are the mistakes made in official papers supposed to be painstakingly prepared by government officials with plenty of time to do it in. For ex ample, Clinton W. Gilbert, one of the better known capital scribes, points out several bad breaks in a memo jointly prepared by President Hoover, acting Secretary of State Castle and Senator Morrow for the Paris conference. In addition to being wrongly dated, the paper used "unconditional" for "conditional" reparations payments and "accepted" instead of "expected."

Evil Omen of Friday Friday the thirteenth has long been regarded as an evil omen. The idea is 2,000 years old. Jesus was crucifled on Friday. At the "Last Supper" there were thirteen at the table. Therefore, Friday the thirteenth means double trouble, and probably will as long as the Christian religion endures. In connection with this, it Is said to be unlucky for thirteen people to sit down to the table for dinner for one of them will die within a year and all will be unhappy. Doctor Kitchener once remarked that there was one case when it was really unlucky for thirteen people to sit down to dinmer together, and that was when there i was only food enough for twelve. \_\_\_\_

White Bread Wholesome That white bread is a wholesome food is the opinion expressed by specialists of the United States Department of Agriculture and live nationally known authorities on nutritional problems. The views of this group, headed by Dr. A. F. Woods, director of scientific work of the department, are expressed in part in a statement based on the scientific facts regarding breads made of white flour and of whole wheat flour: White and whole wheat breads are both wholesome foods. They are among the most important and cheapest sources of energy and protein in the diet.

Color in the Sea The most beautiful of tropical seafolk is the moonfish, often called the ghostfish because of its paper-thin form of a silvery color. The angelfish is as gaily colored as the rainbow with long trailing fins of contrasting tints. The squirrel fish flaunts a deep coral shade and great dark eyes. The parrot fish attracts attention as much by its gorgeous colorings of turquoise blue, plum purple, or bright green as by the peculiar bony beak.

France seems willing to let Germany get back on her feet if France can keep her shoes.
