CHESTERTOWN, - JUNE 27, 1891. A Thermometer in His Stomach.

A painful story comes to us from New Jersey. A young man was ill with a fever. His nurse had a thermometer in his mouth taking his temperature when the patient Groceries, Provisions, Notions, was seized with a fit of coughing. When he recovered the thermometer had disap- Boots and Shoes, Hats and Caps, peared and after the nurse had made careful search for it, the young man admitted that he had swallowed it. The original twenty dollar piece had been drawing six per cent. interest man's stomach is even more active than the gold piece was in the cow's stomach. How the mercury must rise and fall! the reason, he supposed, that the lid had not yet come off the box. As soon as the mercury escapes from the thermometer the effect upon the system may be serious. But so far there has been no inconvenience whatever, except the young man is afraid to bend himself in the slightest degree. He walks as erect and stiff as a drill sergeant. Nothing made with sugar, eggs and milk should reach the boiling point.

Eggs are not only food, but medicine as well. The whites are very efficacious in The molassess to be used for gingerbrea is greatly improved by being first boiled, It is said that sciatica may be cured by applying a coating of flowers of sulphur to the afflicted limb. Blankets and furs put away well sprinkled with borax and done up air tight will never be troubled with moths. It is a fact worth remembering that

persons afflicted with acidity of the stomach should not indulge in cold drinks. French cooks powder parsley by chopping it and then twisting in a towel, which leaves it days it is then used for sprinkling. CASH. Remember we sell leaves it dry; it is then used for sprinkling over dishes as a garnish.

It is best to soak all onions for an hour or two in cold water. This removes their greenness, and if baked afterward they are far more delicate. Boiling seems to concentrate the odor of the onion. To clean mirrors, dust first with a very

dipped in alcohol to cleanse the glass, and dust the glass with powder blue in a thin muslin rag; polish with an old silk handand sugar, is good for children who are troubled with an irritable stomach. It is very healing, and will prove an excellent remedy for diarrhœa, as well as a simple July 17, 1890-tf. preventive for bowel disorders. Macaroni should be used much more than it is. It is a very good substitute for potatoes. Many physicians object seriously to Coal and Wood. the use of old potatoes after they have begun to sprout, and on their own tables use macaroni instead. The simple ways of ORDERS IN ANY QUANTITIES LEFT AT D. A. preparing this everybody knows.

The talk that is going on about the mar riage of Ward McAllister's nephew with a ballet girl recalls an interesting incident in the life of Joseph Jefferson, the comedian. When Jefferson returned from his trium-phal engagement in London a number of Building and Whitewash Lime, New York swells determined to honor the actor who had made so great a stir in England. Accordingly a splendid dinner was given to Jefferson, and all the conspicuous representatives of Gotham swelldom were there. It befell that on the very morning Anthracite and Bituminous Coal E. T. So during the banquet, one of the guests (a m17. very swell personage,) referred to a newspaper item in which Tom's prospective wedding was mentioned. "Yes, it is true," said Mr. Jefferson, "Tom was married to-day." married a ballet girl?" inquired the aris-

"Yes, it is true," answered Mr. Jefferson, "Ah, I did not suppose you would allow your son to marry a ballet girl," said the "And why not?" asked Mr. Jefferson. "His mother was a ballet girl!" The aristocratic party lapsed into a vociferous silence at once.

Cure For Gapes.

The following points regarding the gapes, if observed, will prove a preventive and every disease. Should signs of gapes appear, feed the fowls twice a week with stiff corn meal dough, Read Give a very sick chick a drop of turpentine on a bread crumb.—5. If this fails, then strip a feather, leaving a small tuft on the end, dip it in turpentine, insert the end of the feather in the windpipe, and quickly withdraw it.—6. Feed on clean boards.—7. Never allow uneaten food to remain on the ground.—8. Keep the ground clear of filth 9. The rich, moist places, such as are favorable to earth-worms, are favorable gapes.-10. Do not mistake lice for gapes, as the big, gray lice on the skin of the heads and necks will often cause the chickens to gasp from weakness. It is not an easy matter to insert a feather down the throats of a large number of chicks; hence the best wholesale method is to give turpentine in corn meal, and to use plenty lime on the ground, as the lime will de stroy all gape germs.—Orange Judd Farmer.

Appetite a Good Doctor. When the health is fairly good, and there is no special strain to be put upon the sys tem, the normal appetite may be trusted to indicate the kind and quantity of food necessary to maintain that condition. Naturally the appetite varies with the changing nence no attention need be paid to any in judicious or meddlesome friends suggesting that a person is too stout or too thin, too pale or too ruddy, and serious disturbances of the system often follow the mischievous Ing attention to any of these fads is like quack medicines.
