THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK.

New Discovery by Accident FRESS quickly desolved and permanently removed with QUEEN'S ANTI-HAIRINE, the new and wonderful discovery. Discovered by accident, while compounding a solution, a part was accidently spilled on the hand, and on washing afterward it was discovered that the hair was completely removed. It is perfectly harmless, and so simple any child can use it. Lay the hair over and apply for a few minutes, and the hair disappears as if by magic. No scientific discovery ever attained such wonderful results. Thousands who have been annoyed with hair on their FACE, NECK and ARMS attest its merits. It cannot fail. If the growth be light, one application will remove it permanently, the heavy growth such as the beard or hair on moles may require one or more applications before all the roots are destroyed, although all hair will be removed at each application without the slightest pain or injury when applied or ever afterward. Young persons who find an embarrassing growth of hair coming can also use it. Harmless as water. Price of Queen's Anti-Hairine \$1. straight forward in every word it contains. We invite you to deal with us and you will find everything as represented. Address Queen Chemical Co., 174 Race Street, Cincinnati, Ohio. You can register your letter at any Post Office to insure its safe delivery. We will pay \$500. for any case of failure or slightest injury to any purchaser. Every bottle guaranteed.

SPECIAL—To ladies who will introduce and sell among their friends 25 Bottles of Queen's Anti. Hairine we will present with a Silk Dress 15 yards best silk. Extra large bottle and samples of silk to select from sent with each order. FROM OCEAN TO OCEAN.

Written by W. A. Potts, of Tolchester. from a Recent Visit to California.

No. 4: Arriving at San Antonio, we halt for a day. Here are many things to interest and make us wish for more time to linger. San Antonio has played a very important part in the history of Texas and is a handsome Alamo, where Santa Anna cruelly slaught- which point was the North. He at once Antonio! But our train hastens us on through western Texas that becomes more barren as we pass west through barren hills. dry rivers mile on mile. No green thing, we skirt along the Rio Grande for about 50

miles, a shallow, muddy stream, shut in by mountains on both sides from 1000 to 2000 feet high, we arrive at Painted Cave, which we stop to inspect. The Cave is 200 feet in diameter, covered over by shelving rock, without support, and looks ready to fall at any time and bury those who may be so unfortunate as to invade its precincts at that particular moment. We find in nature some queer freaks. Away up here in this cave, 300 feet above the river, we dig cave are found strange hieroglyphics said to have been painted by a lost race of Inlians. Hence the name. t; made of the best fine calf, stylish because we make more shoes of this lege of leaving Uncle Sam's domains, and grade than any other manufacturer, it equals handsewed shoes costing from \$4.00 to \$5.00.

\$5.00 Genuine Hand-sewed, the finest calf
shoe ever offered for \$5.00; equals French dad Juarez and find ourselves in as foreign nah, Ga., July 22, for murder, has con-

hats costs \$50 that weighed 5 lbs. the walls, with beggars, blocking the en- purposes. trance, dirty, ragged and filthy. The service is held Sunday morning, and joining the church is the bull ring. Soon as service is over the priests and whole congregation rush in to witness the bull fight, the most barbarous, brutal performance the light of heaven ever witnessed. Some of our party purchased souvenirs in Mexico. We noticed the weather became very cold suddenly, calling into use wraps, overcoats and the like, while crossing the line. But if the sleepy custom house officer had known what was hidden under those coats and wraps Uncle Sam's treasury might have

been considerably increased. Astonishing how quick the ladies catch on. While they would shrink from taking a pin not their own they will rob Uncle Sam with We halt at Tucson (pronounced Tuson,) Ar., for a supply of water, giving an opportunity to visit the Indian School, look into the Indian huts, and loose all our romantic ideas about the noble Red Man. There is little in Arizona that is interest ing. This is the home of the cacta, immense trees 20 to 30 feet high, 2 to 3 feet in diameter, these huge cactas bloom beautiful flowers and furnish a sweet syrup from which the Indians make a candy quit palatable. We cross the Colorado river at Yuma, and enter the Colorado desert, 260 feet below sea level, a hot and sandy desert where the wind piles up mountains of sand thousands of feet high. These mountains are shifted from place to place as the wind

changes. Here terrible sand storms occur and woe to the poor traveler who is overtaken by them. Words cannot express the barrenness of this desert waste. Passing up the desert we enter the valley where the apricot, grape, fig and barley are raised One would imagine looking at a railroad map there were towns and stations about every five miles from New Orleans to the Pacific Coast. But instead of stations or towns, we see a sign board nailed to a telegraph pole with the name painted to correspond with the name given on the map and these are the way stations so given. Twenty and thirty miles are often traveled mediate help. Large bottles, 50c. and \$1.00. | without a sign of habitation of any sort and Travelers convenient pocket size 25c. Ask | then only a water station. Crossing the your druggist for SHILOH'S CURE. If your | desert, water tanks are placed upon cars lungs are sore or back lame, use Shiloh's Por- and distributed at proper distances to supply the locomotives passing through These tanks are filled at convenient places and then hauled to their proper stations. Arriving at Riverside, we halt for the day, where we enjoy a carriage ride of ten

iles through this beautiful valley. Riverside is the pride of the Southern Californ ian and he truly has much to boast o Riverside is the heart of the orange country and we drive through miles of beautifu groves of orange and lemon trees loaded with golden fruit, through beautiful avenue overarched with the graceful pepper trees, eucalyptus, grand old palms, magnificent century plants, hedges of the beautifu cypress trained into every conceivable, artistic desgn, also large groves of English walnut, olive apricot, peach, plums of all description, grapes, roses, calla lily, all growing in the greatest profusion. The thermometer at 65, a beautiful bright sunny day, surrounding this lovely garden (for the whole valley is one vast garden spot)

and hemmed in on every side, mountains tower from 3,000 to 6,000 feet capped with snow, making a contrast that seems more like a dream than reality. We could linger Is Still on the Corner of Kent and of this lovely spot and the half would not be told. But not to tire we hasten on to San Diego, where we are comfortably quar-tered at the Coronado Beach Hotel, situated | Where you can at all times find a seasonable line of on the shores of the Pacific and a distance of two miles from the city, across the San DRY GOODS, NOTIONS, Diego bay and reached by ferry. This hotel has 750 rooms and first-class in every or pillar. The roof is an oblong dome, surface of 11,000 square feet. This hotel covers 7½ acres and has a beautiful park in our goods are good and cheap. Ice factory, electric plant, immense swimming pools, March 21. warm and cold, observatory, most beauti-Nos. 6 and 8 N.Charles St., Balto., Md ful drives and walks, in short, money seems to have been spent lavishly to make this one of the finest resorts on the Pacific Coast. In fact there is nothing on the At-

lantic Coast to compare with it excepting the Ponc de Leon at St. Augustine, Florida. San Diego has the best and finest harbor south of San Francisco, with water enough for the largest ship affoat, the gun boat San Francisco, now lying at anchor in the harbor. This would have been a very important harbor for our navy had it been necessary to chastise our South Amercan cousins just a little. The old town of San Diego is seven miles north of the present. city and consists of a few old adobe huts inhabited by Indians and Mexicans and an old Mission where they tell us Ramona was married. Old Missions are great capital for these peop'e to boast of and a town Quality Best. Prices Lowest. Every Implements | without a Mission to point the stranger to have we become that about the first thing we ask for when we strike a new place is "Where is the old Mission?" If the answer, is, "We have none," we condemn the place as incomplete, and so express it. One enterprising guide promised to have one ready when we come that way again, so we had to be easy on him. But new San Diego is a beautiful town, beautifuly sit-

uated partly on a bluff overlooking the bay

and and ocean. Taking the single track

cable car (the first we have ever seen where

the same track, and work very successfully)

we ride out 6 miles to Mission Valley, 25

high state of cultivation. Seen fron Mission Heights, Mission Valley is a picture that must be seen to be appreciated. Away off in the distance they show us an old Mission that can be reached by muleback, but we forbear as the mule looks

A Compass in Every Wacth. A few days ago I was standing by an American gentleman, writes a London Editor, when I expressed a wish to know

two miles from town, the military head- "All watches are compasses," he replied. quarters of the department of Texas, one Then he explained to me how this was, of the finest military posts in America, and the historic cathedral of San Fernando.

Point the hour hand to the sun and the south is exactly half-way between the hour and the figure 12 on the watch. For the city from subterranean springs that instance, suppose it is 4 o'clock. Point the flow from the ground in deep basins and hand indicating 4 to the sun, and 11 on the from a river directly sufficient to furnish watch is exactly the south. Suppose that the city with an inexhaustible supply of it is 8 o'clock; point the hand indicating 8 pure spring water, besides power enough to the sun, and the figure X on the watch to run all the factories that they now have is due south. My American friend was that may be built in the next century. The Thinking that very possibly I was ignorant climate here is simply perfect. The at- of a thing that every body else knew, and mosphere is dry and pure and so free from happening to meet Mr. Stanley, I asked

The June Drop.

The "June fall" of peaches has been go weaker die for want of nourishment. The curculico is a black insect nearly as large as a house fly. It punctures the young For Removing GREASE, peaches and lays an egg in the hole. The egg hatches into a worm which feeds on the inside of the fruit and causes it to drop. Where the sting is not deep enough into the peach, the egg will not hatch, and the peach will mature, though it will have a is quite heavy this year. Some trees shed three-fourths the young fruit, some oneenough remaining; but in general the crop will be very short after the shedding.

A MURDERER SELLS HIS HEAD.—Gus Williams, colored, who is to be hung in Savanshoe ever offered at this price; same grade as custom-made shoes costing from \$6.00 to \$9.00.
