ROCK HALL

One day last week a delegation of fishermen consisting of Herman Jacob, George Davis, George Ayres, Raymond Hensch and Elghman Hubbard visited Baltimore commission merchants and met to solicit their aid in retaining the wharfs as at present. Our oystermen and fishermen see starvation staring them in the face if the ideas of Governor Ritchie, as stated in the wharfs more papers, should be allowed to prevail. The meeting called in Brier's Hall at Betterton last Friday evening was attended by the Protective Association of Kent County was presided over by Herman Jacob. James T. Taylor is recording secretary and Raymond Hensch financial secretary. Others attending from Rock Hall were Capt. Charles R. Kerr, Charles G. Kerr, George Davis, Frank Davis, Edgar Glenn, Ronnie Harris, W. A. P. Strang and Edward Hudson. They were accompanied by Representative Charles N. Spence of Secretary, who was house guest of Capt. Kerr. Addresses were made by Representative Spence, Capt. Kerr, Mr. Strang and Howard Turner, of Betterton. As at the meeting of the association last week in Rock Hall, it was the decision of the oystermen and fishermen that the proposal of Governor Ritchie to lease 30,000 acres of the northern bay and take the oyster seed to more southern waters would put the oystermen of this section at the mercy of the southern planters. As for the proposal to legislate to make a sportsman's preserve for men from other states, who certainly will not fish in heat and cold, rain and snow, as these commercial fishermen do, to feed the people of Baltimore and more remote sections with products of the water industries, our watermen would be forced to abandon their pleasant little homes and move elsewhere to make a living, while beginning as unskilled labor. This cover of "conservation" is as easy to penetrate by the minds of commercial watermen as a mosquito film over the eyes. Let Baltimore wake up and show itself on the side of the men who furnish fish for their tables. A new fish committee was appointed as follows: A. Bowman, Samuel and Charles H. Brier. The following promised to visit Annapolis: Howard Turner, James Sutton and William A. Crew. Captain Charles R. Kerr has been sent to Annapolis to do what he can for the commercial fishermen and keep them informed of prospective legislation. A large delegation of several hundreds from the shore will visit Annapolis later.

The evening services at the Methodist Episcopal Church continue this week. O. E. Jones, failed to reach here in the inclement weather and the sermon was delivered by the resident pastor, Rev. W. H. Revelle, who preached again in the evening from Matthew 21-23. Tell ye the daughter of Zion, Behold, the King cometh unto thee. There were a hundred and sixty members and three visitors at the Sunday School in the afternoon.

Epworth League at 7 P. M. was led by Miss Sarah Revelle who had a fine selection of numbers. Last Thursday the Baltimore papers announced the issuance of a marriage license to William Bramble and Mrs. Mary Godwin. Both of these are well-known Kent County people. SOLDIERS FOLLOW LOANS? LAUGH MONTH. JUST SPOILED. SHE FLATTENED HIM.

Senator Shipstead, of Minnesota, hasn't been in Washington long enough to know what respectable legislators owe to high finance, and will investigate American bankers, loans to South American countries, including Nicaragua. Investigating such loans might explain landing of United States troops here and there. Troops sometimes go where loans go.

Senator Shipstead says Americans made a seven million dollar loan to Nicaragua in 1912, during a conservative regime. That would be seven million good reasons for American intervention to keep Nicaragua Liberals from kicking out a Government that they don't want, as this country did in 1776.

All of those private loans to South American republics, like loans that some of our bankers are making in Europe, are dangerous, especially when, as is usual, they are thoroughly USURIOUS loans.

Dr. Charlotte De Galiere Davenport, charming lady who lectures on health, looks about forty, and is actually 102 years old.

The lady has Russian and French blood, both good for long life. And most important, she weighs 120 pounds. Your body is an irrigation farm. Your heart the pump. Your blood the water. A light body calls for light pumping, making the hearts work easy. Cut down your weight, wisely, and add to your life. Every added pound means more work for the heart.

The month of January, 1927, in which good resolutions are now being away, is to be "natural laugh month." Moving picture potatoes and others have decided and arranged it. Americans are to laugh, and thus keep up their "morale."

It would be better to locate laugh month in December. For looking back over eleven months of much promise, much resolving and little performance, laughing would be easy.

There is such a thing as over-doing laughing, for laughing is like smoking. When you do either, you don't think. And what the American people need is more THINKING.

J. N. Moore, University of Illinois sophomore, wrote, before killing himself, "It raises the devil with me to think of having to slave around and work like the devil and just grow old. I can't see the idea of wading through school, then dash bravely out and get a big job at a hundred a month."

In six words of his letter the young man explains what is really the matter with him, "I am just spoiled, I suppose." If all the spoiled children in this foolish country committed suicide, there would not be enough graveyards.

Mrs. Katherine Trilling, on trial for murder in Denver; married Herman Trilling, in New York, when tuberculosis had reduced him to ninety pounds weight. She worked in tailor shops to pay his expenses at a sanitarium for consumptives, then

"She says she shot him by accident. The prosecuting attorney says she shot him purposely in the back because she was jealous. What do you suppose the jury will say?"

Mr. Bruce, Australian Premier, says we are too modest in this country—that's quite a surprise—and we ought to tell the world what wonderful things we have done and are doing. "I do not suppose there is a country on the civilized globe more misunderstood and unjustly vilified than the United States," says he.

The Australian Premier knows that men do not like their creditors, especially when they don't intend to pay. And the United States' "debt" need not need good will propaganda
