

Perhaps you never realized that a Bank Book is a book of songs.

Every depositor who has one of these highly prized books in his possession can tell you that just to leaf it thru and see column after column of dollars saved makes the heart sing with joy.

A dollar starts a saving account and gets you one of these books of happiness. Every dollar saved and entered in it will add another note to your hymn of happiness.

D. A. R. Activities

The regular meeting of Old Kent Chapter, D. A. R., met Saturday at the home of the Misses Stuart. One of the D. A. R. activities is to give emphasis to the correct use of the Flag of the United States of America.

Through the courtesy of the editors, space will be given from time to time, when important regulations, endorsed by the National Flag Conference, Washington, D. C., 1924, will be published.

The matter becomes a very simple one if it is kept in mind that the Flag represents the living country, and is itself considered a living thing.

The Flag should be displayed only from sunrise to sunset, or between such hours as may be designated by proper authority. It should be hoisted briskly but should be lowered slowly and ceremoniously.

The Flag should be displayed on all National and State holidays and on historic and special occasions. (However, being the emblem of our country, it ought to fly from every flag pole every day throughout the year, weather permitting.)

When displayed with another flag against a wall from crossed staffs, the Flag of the United States of America, should be on the right, the flags own right, and its staff be in front of the staff of the other flag.

When a number of flags of states or cities or pennants of societies are grouped and displayed from staffs with the Flag of the United States of America, the latter should be at the center or at the highest point of the group.

When flags of states or cities or pennants of societies are flown on the same halyard with the Flag of the United States of America, the latter should always be at the peak. When flown from adjacent staffs the Flag of the United States of America should be hoisted first and lowered last.

Sarah Elisabeth Stuart,
Publicity Chairman.

New Bookkeeping System For Peoples Bank Here

Facilitates Promptness In Work Of Bookkeeper

C. J. Holmes and D. L. Spender, representatives of the Burroughs Adding Machine Company, were in town Friday installing one of the latest model Burroughs Multiplex Ledger Posting and Statement machine at the Peoples Bank.

The operation of this machine is largely automatic, enabling the bookkeeper to post depositors ledger and statements with speed and accuracy. This machine in addition to automatically balancing each depositor's account, automatically accumulates totals of check, deposits and new balances, thus enabling the machine to prove the correctness of its work.

Dr. H. Bengt Simmons, President of the Peoples Bank states that the new machine was purchased to speed up the handling of the banks commercial business which is steadily growing.

This is the first machine of this model to be delivered and in use on the Eastern Shore of Maryland.

"Good times are de-cresing," cried the boy, as he gave his pants to the tailor to be pressed.

FIRST DINNER OF COMMERCE BODY SUCCESS

Kent County side, and one more to the west. The main draw in the channel will be at least 200 feet in width. The roadway of the bridge will be of concrete 20 feet wide with emergency points 27 feet wide. The clearance under the bridge at high tide will be 12 to 14 feet, so small craft can pass at any point. The dredge is at work daily taking the borings for the location of the piers.

The dredge is working on the Kent side and will proceed to the western shore. Surveyors from the U. S. Geodetic Survey are establishing the base line. Comparative cost of automobile trip via Elkton, ferry trip and by proposed bridge were given from Chestertown, Easton, Salisbury, Ocean City to Baltimore. The figure show that with the toll rates as planned there will be a saving of \$1.50 a trip or \$3.00 round trip. Therefore if 200,000 passenger automobiles and 20,000 trucks use the bridge during a year there will be an actual saving to the people of Maryland of \$380,000 annually. The directors of the Corporation are: coe Bonsall, Pres. of W. R. Bonsall, William G. Baker, Banker; W. Roscoe Company and Vice Pres. of Seaboard Air Line R. R. Co.; S. Bonsall Brooks; Marion T. Hargis; Stuart S. Janney; Joseph J. Nelligan; A. H. S. Post; John K. Shaw and S. Davies Warfield all of whom indicate the strength of the people behind the enterprise. The real need for a highway bridge for vehicular traffic across the Chesapeake has always been a matter of general knowledge and the construction has been a matter of recurring consideration for more than a hundred years but the cost of such a structure has hitherto proved an insurmountable difficulty. The large volume of motor traffic and the advance in engineering knowledge have now brought this problem within the realm of practical business. Appropriations of the engineering feat involved Mr. Perkins mentioned the fact that W. Roscoe Bonsall constructed enormous amount of trackage in the south in one half the usual time required for such an undertaking.

The last speaker of the evening was Major Frank Hines, of Chestertown, Commander of the Kent County Medical Detachment of the Maryland National Guard who gave a brief review of the seven years this unit has been in existence and then made a forceful appeal to the members of the Chamber to aid in the support of the work in keeping it up to its full strength urging enlistment and interesting the young men of the county who receive worthwhile training and also earn something. The men go to camp each year for two weeks and are benefitted on all sides for civil life. Chestertown is one of twenty towns in the State to have such a unit which is a strong advertising medium for a town through the numerous visitors to

that Sussex county, Del., was the result of the traditional little brown jug which so befuddled the committee that Delaware came in for about twenty additional miles. The boundary finally ran from a point central between Cape Henlopen and Chesapeake Bay until it touched the western arc of a circle of twelve miles radius whose center was the center of the town of New Castle, thence due north to a point 15 miles south of Philadelphia. The east and west Mason and Dixon lines extended 244 miles to the Ohio River in 1767.

Senator Clarence Perkins, of Baltimore, was then introduced as the representative of the Chesapeake Bay Bridge Company. Mr. Perkins read a letter of regret from Mr. Stuart S. Janney who had hoped to be present with Mr. Bonsall for the dinner but who had to accompany the latter on a trip to New York on matters of vital importance to the bridge project. Mr. Perkins then read a paper on the proposed construction of the bridge, its location and terms that held the interest of his audience very closely. The bridge is to be constructed on concrete piers, resting on concrete piles with steel spans connecting these piers of about 250 ft. in length to each span. There will be two draws, electrically operated, one in the channel on the camp and through those who are in camp in the same capacity as our men. Major Hines said there is a chance of Chestertown having an Armory before long such as has been provided in other towns of Maryland and which have become important community centers for organizations.

Mrs. Isaac Dixon of Roland Park, Baltimore and Kent County is at present the first and only woman member of the Chamber of Commerce. Mrs. Dixon is deeply interested in agricultural projects and brings enthusiasm and wide vision into the organization where it is hoped she will soon be joined by other progressive women in the County.

The dinner was well served and delicious and this first get-together meeting of the Kent County Chamber of Commerce was inspirational and will give impetus to its further efforts for the civic and commercial welfare of Kent County.

"Do you think poultry-keeping pays?"

"Well, that I don't know; but I think it pays my boy Tom."

"How's that?"

"Well, you see, I bought him the fowls, I have to pay for their keep, I buy the eggs from him when there are any, and he eats them!"

Teacher: "When was Rome built?"

Boy: "At night."

Teacher: "Who told you that?"

Boy: "You did. You said Rome wasn't built in a day."

"What's the best cure for tooth-ache?"

"Walk halfway to the dentist."

SENATOR BECK REVIEWS KENT LEGISLATION

Continued From Page One

Concerning the Galena school it is said that with the remaining \$8,500 and \$1,300 already at hand in Galena a two story, four room addition can be made to the Galena school.

12. A bill authorizing a \$10,000 bond issue in Rock Hall for the installation of a water system. This bill has a referendum attached.

13. A bill creating a paid Deputy Treasurer in Kent. Investigation disclosed that Kent was the only county on the Eastern Shore where the salary of the deputy was paid by the treasurer out of his salary. This bill provides for a deputy treasurer whose salary shall not exceed \$1000. This was the only salary increase in the county.

These thirteen measures were introduced in the Senate by Senator Beck. Two bills, both dealing with the town of Betterton were introduced in the House. These bills were passed. They were:

1. A bill that permits Betterton to annex additional territory.

2. A bond issue bill for the improvement of the streets and roads of the town of Betterton.

Bay Bridge Bill

A bill of state wide nature but closer to Kent than practically any other county was the bill introduced by Senator Beck at the request of the company proposing to build the bridge.

The original bill, according to Senator Beck, provided only for a tax to be paid to the state. The Baltimore County delegation thought that Baltimore and Kent counties should receive some of the tax and offered an amendment to that effect.

This provided that there should be a tax of 2 1-2 per cent on the first \$750,000, 1-2 per cent to go to the state and 1 per cent to each county; a tax of 3 1-2 per cent on all from \$750,000 to \$1,000,000, 1-2 per cent to go to the state and 1 1-2 per cent to each county; a tax of 5 1-2 per cent on all over \$1,000,000, 1-2 per cent to go to state and 2 1-2 per cent to each county.

Senator Beck had a hard fight on his hands when the Baltimore County delegation held out for 75 per cent of the amount after the State had been paid. He was victorious and obtained an even split for the county.

Senator Beck complimented Delegates Bowers and Brice on their fine fight in the House on behalf of this bill when the Baltimore Eastern Shore Ferry Company made an attempt to put over their amendment.

Visitor: "Your son is rather small for his age, isn't he?"

Fond Mother: "Oh, no. Most of the boys of his age are over-grown I think!"

DEATHS

Mrs. Emma L. Pippin, wife of William R. Pippin, died at Maryland General Hospital, Baltimore, on Wednesday, April 6th, after a long illness, aged 62 years, 4 months, and 16 days. Besides her husband she leaves a brother, William S. Brownley, and a sister, Mrs. Arthur Milby.

The deceased was a woman of rare business ability with a sunny disposition that won her friends wherever she went.

In the hotel business she became acquainted with scores of people who held her in high esteem. Her death leaves a void hard to fill. She was of a high character, lovable disposition, a good christian woman, and a friend to all.

The funeral took place Sunday at 2 P. M. Rev. W. F. Corkran officiating. The bearers were Charles R. Robert and Walter T. Pippin, Jr., Corner Brownley, Maynard Healey and Eugene Milby. Interment in Chester Cemetery. Charles L. Dodd undertaker in charge of funeral arrangements.

Mrs. Martha Beck, daughter of the late Capt. Joseph Ashley, of Piney Neck, and widow of the late Lemuel Beck died Saturday, April 2nd at the home of her son-in-law and daughter, Mr. and Mrs. Michael Adley, in Newark, Del. Capt. Joseph Ashley, Mrs. David C. Ashley and Mrs. John Ward, of Piney Neck, and Mrs. Charles Ashley, of Grasonville, are her brothers and sisters. The remains were brought to Kent the following Tuesday and funeral services conducted in Wesley Chapel by the Rev. Connelly, a former pastor in Piney Neck. Interment was made in the adjoining cemetery.

CHURCH NOTES

The By-Kota Club of the M. E. Church will meet at the home of Miss Erynn Jewell, on Monday evening next and will be entertained by Miss Jewell, Sarah Ruth and Mrs. Leonard Needles.
