in a thousand billions.

million tons of ore in sight.

How many more billions are hidden away in the mountains that stretch appealed to the Chamber for the 1. Fairlee across and up and down this counprospectors, but never really PROS-PECTED.

Great Britain receives the right reply to her note concerning Mr. Mellon's letter to college professors about international debts. Secretary Kellogg tells Britain that what Secretary Mellon writes to American professors is our business. That covers the ground.

Incidentally, the British admit that beginning in 1932 they will be getting from their European debters, recently called "gallant Allies," more than enough to cover all payments to the United States. Mr. Mellon's statement was strictly accurate, barring one clerical error, and it enlightened his fellow citizens.

This IS news. A tractor and plow with no driver, all by themselves guided by electricity, ploughed a twenty-acre field on the farm of the Nebraska Agricultural College yesterday, farmers, professors and business men looking on. The first furrow only was ploughed under human guidance. That furrow acted as guide and the machine did the

There you have the ultimate solution of the farm question, and proof that "back to the farm" is not neces-

The farmer will sit, spyglass in hand, on a tower in the middle of his acres, watching one machine spraying potatoes, another cultivating corn, a third cutting green oats for hay, and not a farm hand on the place.

In Kansas alone this year additional "combination" machines for harvesting wheat will do away with 25,000 itinerant extra farm hands. Brains, money and machinery will solve the far m problem as they have solved other industrial problems. \_\_\_\_\_

-As will be seen by advertisement in today's issue the Tolchester Company will, beginning May 28th, have a very frequent Ferry service between Tolchester and Baltimore the first boat leaving at 8:00 a. m.

Mary went to a fortune teller the other day and asked him when was the bes t time to get married. Well, he took one look at her and advised her to grab the first chance.

"Give me a sentence with the word vicious?" "Ye Gods and little vicious."

YOUR FLOORS AND LINOLEUM

Easily—Electrically—ten times faster than by hand

Gleaming waxed floors are no longer a luxury-NOW you can have their radiant glow in every room. The new Johnson's Wax Electric Treatment makes WAX the most economical of floor finishes. This treatment takes only a few minutes-there is no hard work-no stooping or kneeling-no messy rags and pails. It won't soil or roughen your hands! And it saves you all the bother and expense of frequent refinishing.

This Johnson's Wax Electric Treatment is so easy anyone can use it. Just spread on a thin coat of John son's Polishing Wax with a Lamb's-wool mop. Thi cleans as it waxes. Then run the Johnson Electric Polisher over the floor and let ELECTRICITY do all the work. This Electric Floor Polisher is much easier to run, than a vacuum cleaner—it glides along silently, smoothly leaving a path of beauty behind it.

It makes nodifference whether the floors are old or new-of wood, linoleum, tile or composition. Nor how they are finished—with varnish, shellac, wax or paint.

You can RENT THIS ELECTRIC FLOOR POLISHER FOR \$2.00 A DAY and in just a short time give all your floors and linoleums this beautifying wax treatment.

JOHNSON'S WAX Electric Floor Polisher
