## The Greatest Of Romantic Actors As The Greatest Lover Of Romance

JOHN BARRYMORE in "DON JUAN" - A Warner Picture

"Don Juan" What adventurous and romantic fancies that name conjures up in the minds of the literature lovers of all nations!

John Barrymore! What a very incarnation of the spirit of romance and adventure that name represents to all lovers of the stage and screen the world over.

Therefore, it is with pardonable pride that Warner Brothers present their super-production of "Don Juan," starring John Barrymore, which comes to the Lyceum Theatre on June 10 and 11.

This inimitable love-chronicle artfully combining intimacy, action and splendor, loosely adheres to the tradition of Don Juan Tenorio, grandee of Spain, upon which Moliere, Balzac, Byron, Zorrilla and many others have based enduring contributions to the world's classics. The source-character of Don Juan possesses the characteristics of irresistible charm, grace and masculine comeliness. He is accomplished aggressive, audacious in affairs of honor of the heart. Men instinctively acknowledge his natural precedence in the kingdom of intellect and power—women his mastery in the realm of emotion and love.

In the photodrama "Don Juan" Bess Meredith, adaptress of "The Sea Beast," has created in collaboration with Barrymore and Ann Croglund, the director, an original treatment of the legend, a culmination of all the Don Juans that have gone before, a personification of the arrogant, strutting, boastful, daring, eventful, romantic, colorful, Caesar Borgia; Montagu Love, Don Juan's rival; Josef Swickard, Duke Della Varnese, Adriana's father; Lionel Braham, Duke Margoni; Phyllis Haver, Imperial; Helen Lee Worthing, Eleanor; Nigel de Bruiler, Marquis Rinaldo; Sheldon Lewis, Prefect of Police; Emily Fitzroy, Dowager.

Mr. Walter W. Perkins and family, of Philadelphia, are registered at the Voshell House for a short stay in town.

Mr. George Hadaway returned on Saturday from the Easton hospital where he underwent an operation for the removal of his tonsils and adenoids.

"Don Juan" is the Warner Brothers bid for everlasting cinematic fame. It will go down in screen history as one of the greatest and most colorful pictures ever filmed.

As Don Juan is the greatest romantic character of tradition, so he is portrayed by the foremost romantic actor of the time—John Barrymore. In "Don Juan" Barrymore has given one of his greatest, if not his supreme, performance on the screen. It is a role of the type of which he plays to perfection, and the magnificent and romantic setting in which he is placed enhances his work to a surprising degree. The part affords him an opportunity to display that concisely elegant humor for which he and his family are so justly famous.
