A Long Felt
Necessity
 Having a new, finely equipped Ambulance, we offer its service to the public for hospitals, etc., night or day, at reasonable charges, according to distance.
 Call Telephone Still Pond 3, Chestertown 806J.
B. R. Fellows,
 Still Pond.

NO
GUESS WORK
 When you purchase medicines, lotions and creams you want no "gu-work" in compounding. A high standard of prescription and prescription filling is the service you should demand and insist upon receiving.
 Our years of experience in Prescription filling has given this store a reputation for accuracy and dependability of which we are very proud.
 Make this store your store.

Do this now!

THE hardest part of refinishing your floors is getting around to doing it. After that it's easy enough.

Just get a can of LAVA-VAR FLOOR FINISH and try it out. You'll be surprised at the results. And you'll be surprised at the way it stands the wear. It leaves a mirror-bright, waterproof surface, that won't turn white and won't show heel marks, etc.

We have just the brush you'll want to use, too. Stop in and see us. It won't obligate you in the least.

FIVE FOR A QUARTER

That's All It Costs to Buy Good Cigars Today. Smokers Everywhere Enthusiastic

It seems out of the question to some smokers—but the sober truth is that there is a good cigar now selling at 5c. It sold at more than a nickel for years. It became so popular that the makers put the price down to five cents. And improved the quality. Sales mounted. Men like it because it is mild, fragrant and satisfying as only ripe tobacco can be. Millions are sold. Yet some smokers hold back. They can't quite believe in any cigar selling at 5c, no matter how well it's established. If you're an unbeliever you're standing in your own light. Ask for "Havana Ribbon" and produce a nickel. Then, put on the work with that cigar. Smoke it fast or slowly. Notice its aroma, mildness, sweetness. Notice how it satisfies you without leaving you fed up. You'll bank on Havana Ribbon from then on.

AUTUMN
 Mary Riddick Madison.
 Out among the swaying trees, In the gusty autumn breeze, I could wander all the day On my glad, ecstatic way— Feeling that I walk with wings While my buoyant sings, While I breathe the fragrant air, Falling leaves blown everywhere! Oh the nipping autumn air Cheers the spirit, drives out care!

A STYLE SHOW
 Women's Clubs have many and varied ways of earning money. The most common of these is selling things, from candy to pancake flour, baking aprons, and flowers. Rummage sales, card parties, musicals, lectures are always popular. The home talent play or vaudeville never fails to draw a crowd—but why not try the simple and natural (for women) style show or fashion revue?

VALUE YOUR EYES
 Much poor health is due to eye-strain. Poor vision may make a child retarded in school, give one the failure habit or make him unsuccessful in his work. Even curvature of the spine may be caused by sitting in a crooked position in order to see. The lungs may become weak by constant stooping to read or write; and headaches are frequently caused by poor eyesight.
 The best lighting system is that which is nearest to daylight. The indirect method of lighting is good because it distributes the light evenly about the room. Insufficient light causes eyestrain and too bright a light is just as bad. When we stare at the sun, we see spots and are blinded by the glare. Somewhat similar is the effect of too bright lights. Electric lights should be frosted or shaded in some way, and not too strong nor too close to the work and worker.

TO STORE VEGETABLES
 Beets, salsify, parsnips, carrots, rutabagas and turnips can be stored in out-door pits, but they are difficult to get at in freezing weather. They can be stored in boxes in the cellar and kept fresh by being covered with moist sand. Cabbages will keep better if each head is wrapped closely in a newspaper and they are placed on a shelf in the cellar. Squashes and pumpkins should be kept where there is good ventilation, in a dry, cool place.

PLANT SHRUBS NOW
 Anytime before the ground freezes is the time to plant shrubs. There is nothing which will more beautify your yard than a wise planting of shrubbery over it. It actually adds to the value of your property, in dollars and cents, for it makes it attractive to the buyer, and this with such a small outlay of cash. But the best value of shrubbery is that it adds the home touch to the house and yard.
 How to get that mysterious charm is a problem to the notice, but there is no secret about it. All it requires is that you give some study to selection—and the nurserman will help you with that—and that you get a shovel and spend about a couple of hours in setting the shrubs out. It is wise to buy a little fertilizer to encourage their growth.
 There are three main types of shrubs: those for hedge, for masses and for single specimens. For a low hedge, the privet, which trims well; or the Japan Barberry, with its pretty foliage and its scarlet berries, are the best. For a high hedge or to screen off some unsightly view, the lilac or syringa are valuable; or the more rare Rose of Sharon (Althea) which blooms in August and Septem-

ber with a profusion of rose-like blossoms.
 For mass effects, one may select a wide variety from the catalogues, but take care to set tall shrubs in the backgrounds and to choose those which branch low and droop gracefully for the foreground.
 For single specimens, the nursermen will make many suggestions. The tree Hydrangea, Red Dogwood and Purple Fringe sumach are choice varieties.

SHOE STYLES
 Both black and tan are popular in shoes this season. Reptile skins seem to have crept further into our favor than ever. Lizard, alligator and boa snake, in both black and tan, are going strong. Lines are more simple and heels more moderate. Patent leather and suede are also good choices for the season's footwear.
 Hats, shoes, gloves, bag—to be smart—should match or harmonize. To choose a conservative color and shades, as black and white, or the shades of brown and tan, makes this more easily possible.

THE CHILD'S SLEEP
 Nine hours of sleep a night is not too much for the average child. The college boy or girl should have eight. If one is nervous, working terribly hard or run down physically, he needs ten hours each night to recuperate. But the length of the nightly sleep depends much upon the habits of life, food, exercise and environment. It is not good to spend more hours in sleep than are needed to maintain good health.

BABY'S BEDDING
 One inventive mother has a novel way of keeping the baby from kicking off the bedcovers at night. She sews a lady's hose-supporter around one of the rods of the bed on each side. When she tucks the baby into bed, she fastens the bedding with the supporter, just as it is meant to fasten to a stocking. This method is less likely to tear the bedding than pinning and the elastic allows the child more freedom of movement.

SAGGING CANE SEATS
 When cane seats begin to sag, they can be made taut and firm by turning the chair over and wetting the under side of the seat. The upper side, being varnished, will not be affected by the dampness, but applied from beneath where there is no varnish, it will make the cane shrink and the seat will remain tight for a time.

CARE OF NICKEL
 If nickel plated surfaces become rusted, use the following remedy: Apply vaseline and after several days wipe with a cloth dipped in ammonia. If the spots are stubborn, add a few drops of hydrochloric acid to the ammonia, but be sure to dry the metal quickly; then rinse it with water, and polish thoroughly.

MEAT PIES
 Cut up left-overs of meat; add a left-over dish of cooked carrots or peas of a stalk of celery and a few potatoes cut in quarters. Dish this mixture into individual tins; cover with unsweetened muffin batter; bake and this makes delicious meat pies.

COLD PROSPECTS
 Wise old Ben Franklin said, "Silks and satins put out the kitchen fire." With the popularity of these materials today, it looks like a cold winter in most households.

SERIOUS THOUGHT
 "Bootslacks are having twice as many children as college professors."
MRS. SALOMON SAYS:
 Home is one place where it is not true that "Two's a company; three's a crowd." A child sweetens the home. Pity the child who is regarded as an intruder.
SMILES
 "You get the national air of this country in all its restaurants."
 "What is it?"
 "Garlic."
 "He fell over fifty feet."
 "And he wasn't hurt?"
 "No, he was only getting off a street car."

USE FOR SOUP MEAT
 The meat from soup is rarely any good, since the juices have been extracted in making the soup. It may, however, be given a tastiness all its own by the following method: Cut the lean meat rather fine, as for hash. Flour it and fry it crisp in a pan.

Rising Young Man: Somebody who assembles a four-year loaf in college, two months in Europe and 361 prejudices and refers to it as background.
 Iceland has neither army nor navy, and doesn't need any, for who wants Iceland?
 Time is money, but there is no occasion for saving either unless you know what to do with them.
