HELP US TAKE STOCK

A BENEFIT FOR YOU AND A FAVOR FOR US.

It is an old rule with us to take stock the first of March every year and it is easier to count the money in the cash register than stock on all the floors. We decided to make a **CLEAN SWEEP** of all our winter goods what is left this season and for that reason we are going to make a

Pre-Inventory Sale!

Now this sale will be good every day from now until the First of March. From the figures that we quote below you can imagine why we say it is a benefit to help us take stock.

ABE COHEN, SANDY BOTTOM DEPARTMENT STORE
THE LEADING MERCHANT OF THE LOWER DISTRICT.

Mr. Quick, the Baltimore City Water Engineer, was about as far off in his calculations for the Chestertown water supply as he seems to have been in the Warren deal. He was perfectly sanguine that our artesian borers would find bed rock at 500 feet. When we had reached a thousand feet he concluded that bed rock was at 1033 feet! We have now gone to near twelve hundred feet and yet no bed rock is found. What's the matter with Mr. Quick's figures, anyway?

Five of the largest shoe manufacturing concerns in Brockton, Mass., have notified city officials that they intend to leave town as soon as possible. One of the largest firms in the city, which did a \$5,000,000 business, has found that, owing to the high price of labor, it has made only \$22,000, or one cent on each pair of shoes it has sold in the last year, having disposed of 2,300,000 pairs. Somebody has made the money and it surely was not the commercial traveler. Maybe it was the merchant?

A TELEGRAM from Franklin, Louisiana, dated Saturday, January 23, says: "I stand ready to go with the whites today right into hell—to protect a woman, white or black, against a fiend," said Bishop E. W. Lampton, of the African Methodist Episcopal Church, in his charge to the Louisiana Conference of his church here last night. "Womanhood must be protected; let us do our part," he declared.

TWENTY-NINE days after Messina was thrown down by an earthquake, overrun by fire, and then drenched by frequent rains, there was taken from the ruins of a building on Monday a man eighty years of age. He had managed to subsist upon some decayed vegetables within reach, but was reported as having "suffered greatly from thirst." Several other persons were rescued from the ruins after being covered for a week or two, but the old man found Monday takes the prize.

The Committee in Baltimore which investigated the proposition to purchase the Warren Company property at \$725,000 decided that \$325,000 was a fair price for same. The Sun in commenting on the verdict says: "There is one inevitable and unavoidable conclusion from the facts brought out before the committee in this investigation. It is, in a word, that Mr. Quick is not the man to whom the city can safely intrust this important undertaking."

On the other hand, Summerfield Baldwin, president of the Warren Manufacturing Company, is incidentally president of the Baltimore Reform League. Mr. Baldwin is sitting tight on the lid and on his agreement to sell the Warren property to the city for \$725,000, less \$100,000 to be paid the city for two years' rental. This is reform all right!

Directors Elected—At a meeting of the stockholders of the Queen Annes National Bank the following directors were elected for the ensuing year: Dr. James Bordley, James Brown, Stephen L. Ford, Ezekiel W. Forman, Joseph E. George, Wm. H. Newnam, William McKeenny, James E. Newnam, J. Fletcher Rolph and William R. Wilson.

At a meeting of the stockholders of the Queen Annes National Bank the following directors were elected for that institution: J. Louis Rhodes, Charles A. Busted, John R. Cook, W. J. Price, Sr., John H. Evans, William D. Smith, Jr., Frank Harper, J. H. C. Legg, James Merrick, Jr., and Charles R. Wilson.

KANSAS TEACHING ITS GIRLS HOW TO COOK.

One of the men who gave information to the Country Life Commission in Omaha has recently said he believed not more than 50 per cent. of the farmers' wives knew how to cook properly, says the New York Herald. Not one of more than 150 persons in the meeting contradicted him. The man then said the percentage of women he referred to didn't know they were deficient in cooking.

Proper food, correctly prepared, is considered of great importance, because without ill health follows, and where there is ill health there are certain to be conditions tending to create poor farm homes, improvident farmers and children insufficiently nourished.

Kansas proposes to see that such criticism shall not apply to its farm homes if a well-equipped school of domestic science can prevent it. The girls of today in Kansas are to be taught to be taught to cook, to sew and do the many other important tasks of home in a way to eliminate even a suggestion of "household drudgery."

C. R. Kluger, the Jeweler, 1090 Virginia Ave., Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my back-ache and the irregularities disappeared, and I can now attend to business every day, and recommend Foley's Kidney Remedy to all sufferers, as it cured me after the doctors and other remedies had failed." said by all druggists.
