ROCK HALL NOTES.

The Odd Fellows of this place celebrated the 15th anniversary of their Lodge on Tuesday evening. It was a pretty gathering. The exercises were impromptu and consisted of song and music, refreshments, etc. Prof. Jude's orchestra furnished the music with piano accompaniment by Mrs. R. A. Shallock. Miss Ruth Ayres delighted the audience with a pretty song, with piano accompaniment by Miss Myrtle Burdine, who skillfully manipulated the keys. Very much of the success of the affair was due Mr. William Hillingham, who spared no time and labor in formulating the arrangements for the occasion.

The Oyster Police steamer visited our harbor on Monday to supply the surveyors of the Shellfish Commission with the requisites for the further prosecution of their work. Mr. S. B. Colyer who is their guide in designating the oyster bars for this county, entered upon his duties Thursday. If Sam prevents the Commission from "swiping" our natural bars and best planting bottoms, all will be well, otherwise he better stay aboard the Oyster when she leaves here. "Nuf sed."

Messrs. L. E. Smith and J. D. Wood had an experience some days ago that caused them to form a harsh opinion of a celebrated salesman of the Monumental City. Both went to the city together to purchase tomato seed. Neither knew the others intention of going to the house in question. Wood called, he was informed that the seed would cost him \$10 per pound, but he got them finally for \$8 per lb. When Smith called he too was informed of the \$10 price. "Why," said Smith, "I have a paper in which is your advertisement stating the price to be \$6 per lb." After some parlying he got his seed for the advertised price \$6. He had the laugh on Wood but neither considers the matter a joke. Moral—Patronize the home concerns for honest dealings.

ROBBERIES IN KENT.

Deputy Sheriff Frank Lockerman arrested a white man and a colored man on the charge of robbing the home of Mr. E. Thomas Massey, at Massey, mention of which was made in this news last week. Mr. Massey says the goods box looters and brave fellows can talk as they will as to what they would do if a burglar was in the house but that no man knows until confronted with the experience. He was glad when morning came after long hours of vigil on the stairs.

The thief burned a slit of a side window, lighted the lamp, helped himself to strawberries and cake and left the light burning on the dining room table. The boldest thing he did was to enter the bed room of Mr. and Mrs. Massey and steal Mr. M.'s pants and underclothing from off a chair close to the bed. Mrs. M., who was aroused first and awakened her husband. He seized his pistol and went down stairs but when he found his guns gone and the "spread" on the table he beat a retreat. Some medals were left on the table, the two guns and clothing were found in the orchard, and nothing can be missed except about \$4. Officer Lockerman is working on the case and hopes to find the thieves.

WHEAT HARVEST BEGINS.

Three Texas Counties The First To Gather Crops.

Chicago, May 25.—Private advices received here today stated that harvesting of wheat had begun in three counties of Texas and that the yield would be about 15 bushels to the acre. H. E. Brecott, a Chicago expert, however, declared that this estimate was 50 per cent, too high, as the prolonged drought precluded such a yield.

The first garnering of wheat each year begins in Texas about this time, and is of importance, chiefly as marking the commencement of the general harvest, which sweeps in a gradually broadening path north with the advance of the season through the great winter wheat belt.

The winter-sown crop gathered, the spring wheat of the immensely productive Northern States follows, until the last sheath has been taken from the fields of Manitoba in the latter part of August.

This great forest of grain, when harvested, will leave a road of stubble, approximately of 45,000,000 acres. The latest complete statistics made the yield 634,087,000 bushels in the United States in 1907. A similar yield this year would mean, roughly, about that number of dollars. However, in many quarters it is asserted that this year's harvest will be under 600,000,000 bushels.

"In July Chicago will be buying the wheat of the previous year," is a statement made by James A. Patten at the height of his bull campaign in May wheat.

On this point Secretary of Agriculture Wilson took issue with the big speculator and finally left the controversy for "time to tell." The news from Texas is the first word of what "time" has to say on the subject.

MAIL DRIVER WILLIS' HORSE RAN AWAY

MAIL DRIVER WILLIS' horse ran away near 2 o'clock, through the streets of Chestertown, Md. Willis out and breaking his arm and scattering the mail all along the road.

JULY wheat is quoted at \$1.17.

Bridge Open.—We are pleased to report the completion of the repairing of Crumpton bridge. It did not interfere with travel scarcely at all, owing entirely to the splendid management of Capt. V. Scott who had charge of the work and his helpers, John Higgins, James Boulter, John C. Boulter, William Hill, Herman Hill and August Heinefeld. Mr. P. W. Ruth, the bridge-keeper, says, "A more gentlemanly set of men never came to Crumpton, not an unkind word to one another did we hear, not an oath, no drinking and special effort on the part of each to help those wanting to cross." It is a credit to Mr. Leary to have such men in his employ and we commend them to the public for any favor they might ask.
