ALL INSURANCE RECORDS BROKEN

The Year 1922 Showed Increasing Prosperity and Improving Business Conditions.

The Metropolitan Life Insurance Company broke all records in amount of business done in the year 1922, according to a report published today.

Particularly significant is the fact that industrial insurance, which is taken largely by wage earners and their families, had such a great volume. The total amount of industrial insurance placed during the year was over \$775,000,000. The investment situation is also good.

Along with this great increase on the business side, the work done by the health of its industrial policyholders, kept pace. Metropolitan nurses made more than 100,000 visits to sick industrial policyholders, bringing the total number made since this service was inaugurated to over sixteen million.

HOG CHOLERA REMEDY Editors Kent News, Chestertown, Md. Dear Sir: In a recent issue of the Kent News there appeared an item relative to the success which Mr. James Baxter, of near Ralph's Wharf, has had in keeping his hogs healthy and free from cholera through giving them turpentine and carbolic acid.

It is gratifying to know that this gentleman has escaped the ravages of hog cholera during the past year when the losses from the disease have been particularly severe. However, in order that the information contained in this article may not be misplaced I would like to state the following:

For several decades past, the U. S. Department of Agriculture has conducted research work in swine diseases and in 1903 its workers succeeded in locating the causative agent of hog cholera.

Scouting is a comprehensive, vital force, always finding expression in the Golden Rule. It broadens views, increases abilities, enriches and purifies character.

Scouting teaches and develops fellowship which is the Golden Rule in action, the motive power of human engineering, the life blood of service, and establishes equal opportunity for all.

Each Scout organization must work out together as a unit the problems of the day in such a way that each member feels that he is a co-worker in the great cause of rendering service to mankind.

Believing in and loving one another and being willing to serve each other is the right in the heart of scouting. Service The Big Idea of Scouting. Service, to be service, must be unselfish, expressed in safety, efficiency, and economy.

Scouting is progressive, gives big vision, and high ideals. Scouting functions the work of head and hand through the heart.

Scouting teaches boys to be friends, brothers, co-workers and constructive helpers. Scouting finds expression in the boy in helping and making him physically strong, mentally awake and morally straight.

Scouting is a program offered to red-blooded boys with the big outdoors as a background. It appeals to the boy and it leads from the unguided and often vicious play of the streets to the healthy, happy practical things of nature.
