Some apprehensions had been made the previous week, that the Democratic candidates and "pollies" would be greatly puzzled in so dividing themselves as to be able to be at the big meeting at Millington and the R. H. festival, but if they were puzzled they succeeded ad-Saturday evening and were observed 12c | wending their toilsome way to and from among the great mass of humanity. 42C No parcel of the Democratic fence was overlooked. Were the G. O. P. there? 8c You bet they were, both big and little, and they performed their mission well

for November 7th. A prominent Republican of this place a few days ago, stated that quite a num-14c of his party voters, intended to support the Democratic ticket this fall.

50c It is very much regretted, that ugly reports have been circulated in regards to certain candidates and of our religious man can believe such reports, the gentlemen who are alledged to have made the expressions have too much "horse-sense" to have thought such. The reports are unfortunate, and will have the effect of doing injury not so much to the candiates concerned as, to the parties concerning them. "Chickens come home to

Many of our oystermen have been very much interested in the big yacht race in New York bay. The Shamrock has many admirers here, but the Columbia is the favorite of the larger number. Monday was the opening of the dredging season, but calm weather has thus far prevented a fair trial of operations. Reports come that oysters are very scarce and inferior on the dredging bars, and the prediction is that small catches

will be the rule. The heavy fogs of the week have operated against our oystermen to a considerable extent, a number of tongers having become lost in the fog hours. There is still considerable sickness in

our midst of a malarial nature. Our doctors are constantly on the go from patient to patient. Capt. Edw. Proctor has been very unfortunate for many weeks. The sum-

mer's fishing in which he was engaged profited him nothing and since the Capt. "Buck" Sanford, who has also

now on the road to recovery. Messrs. Frank Satterfield and Jack Messrs. Frank Satterfield and Jack Collison, both of whom are quite deaf, and Grain O. have been undergoing treatment by an ear specialist, with little or no benefit. Mr. James Harrison, while engaged

November will hardly claim any share of Indian summer as October has given us quite a lot of the real thing during past week or two. It appears that the registers of voters

of this district have not given entire duties on Tuesday last in the revision of the voting list, as we understand that two appeals have been taken. Farmer Beremon is having a commodious addition erected to his dwelling. He is going farmers Smith and Maslin
