KENNEDYVILLE, MD.

ISS IT? Why, yes indeed you will miss it if you are going to paint YOUR HOUSE this spring and not use CARRARA PAINTS.

Be sure to call on me or write for full particulars of this, the best paint on the market today. It has so many very good points of merit can't all be told in newspaper. Here are some of them: It will no t fade, blister, chalk, peel, crack or powder; is not affected by gases, grease, acids, salt, moisture, or changes in temperature. Out wears white lead (CARRAA PAINTS have not a particle of lead in them, but have a better metal. It holds its color, cleans more easily, is elastic, non-porous, non-poisonous,) no more lead cholic and covers more surface than any other paints, therefore costs less money

Chestertown Endorsement of Carrara Paints.

Mr. Joseph Guest, Dear Sir:—Upon the recommendation of Mr. John Marshall, of Baltimore, Md., builder of John Hopkins Hospital, whom I know to be a thoroughly truthful man, I used your Carrara Paint on my dwelling and found it to be all that is claimed for it, and I take pleasure in recommending it to everybody. I can say I am especially pleased with the Paint. Yours truly, CURTIS E. CRANE.

The mumps has been going the rounds of Lynch's school, Lottie ond Ruth Copper, Elmer and Daisy Jones and others have been quite sick, but nearly all are convalescent except Daisy Jones who has just contracted them and is quite sick, as she has them on both sides which is doubly painful.

We had service at church last Sabbath for the first time for several weeks on account of such inclement weather, and we all enjoyed the excellent sermon by our pastor, from the text "What is your life," Oh! if we all only cared what our lives were, how different would they be, but we must work for that end.

Model Steel Roadway.

The laying of a track of broad, flat, steel rails on Murray Street, between Broadway and Church street, New York which was accomplished the middle of last December, was the second step in the opening of a new era of transportafriends and customers a year of un- tion in this country. The first step was the introduction of automobiles; the We intend to please all our old patrons second is the building of good roads for and the public generally in prices them-roads that shall be suitable for

The steel road, strange as it may seem, was first tried in unprogressive Spain, OUR STOCK IS COMPLETE and the where a section of it two miles long has prices will be made to challenge pub- undergone the abuses of the heaviest kind of wagon traffic for over ten years, and yet has stood the test well. At the end of seven years the average cost per year of maintaining the sides and centre of the roadway was found to be but \$380, as against \$5,470 per annum paid to maintain the flint stone paving or surfacing previously used. The wear of the rails themselves was but 0.1 mm., or 0.003 inch a year.

The rails used in Murray street are 40 Plow Lines, Tree Saws, feet long and 1 foot wide, with flanges 3 inches wide on the under side and & inch wide on the top. The rail is \$ inch Shovels, Spades, Hoes, thick near the flanges, and a trifle more Rakes, Etc., Etc. thick in the centre. The slight flange on each side of the top of the rail tends to keep a wagon wheel from running off with any slight side-pull, while it can easily surmount the flange when the driver wishes to run on or off the track. The rails are laid with the alternate Machine Warranted. joints on opposite sides, similar to those of a railroad track. The distance from weight of the rails is 25 pounds to the foot, or 132 tons per mile, and the estimated cost of a mile of track, including Oliver and other makes of Plews. laying, is \$4,000. Gen. Stone believes. however, that on country roads lighter and narrower rails weighing but 100 tons per mile can be used, and, with When once built, a road of this type will last a generation if the earthen part of it is kept in repair at slight expense.
