CHESTERTOWN, MARYLAND.

HE EARTH IS FULL OF GOOD THINGS, and each century puts on record many new and useful things for our benefit and enjoyment. The 19th Century, among other things, gave us the New Metal, Barium, which by the manipulation of Oliver D. \*\*\*\*CHESTERTOWN, MD Goodell, of Baltimore, Md., produced what is now known as CAR-RARA PAINT, which is surely and fast superceding our old paint (White Lead). See cut below.

Chestertown Endorsement of Carrara Paints. Mr. Joseph Guest, Dear Sir:—Upon the recommendation of Mr. John Marshall, of Baltimore, Md., builder of John Hopkins Hospital, whom I know to be a thoroughly truthful man, I used your Carrara Paint on my dwelling and found it to be all that is claimed for it, and I take pleasure in recommending it to everybody. I can say I am especially pleased with the Paint. Yours truly, CURTIS E. CRANE.

CARRARA PAINTS will not Blister, Peel, Chalk, Crack, Powder or Fade. CARRARA PAINTS are not affected by Acids, Gases, Grease, Salt or Temperature. DARRARA PAINTS hold their color, are elastic, non-porous, bear scouring without destroying gloss, and is non-poisonous (no more Lead Colic). And last, but most important, it covers more surface than Lead Paint, and is therefore cheaper. Try it for yourself and be convinced.
