Are You An Up-To-Date 20th Century Farmer? Hicks' Forecasts for September.

IF SO. YOU WILL USE

T. R. HUBBARD & SON'S

ANY cannot understand why, after so many years doing business here, IVI that T. R. Hubbard & Son's Fertilizers are more extensively used year after year. But the mystery is solved by a visit to our factory, which is always open for inspection to the public, and those who go down to our works maryel at the pains taken in manufacturing the goods.

"First, the bone is shoveled in the crusher with a scoop shovel and pre- on and about which marked storm conpared for the Denmead mill, then it is dissolved, and after getting in good mechanical condition, if making dissolved bone goods, so many pounds of bone is put in the mixer. The nitrate of soda, fish and high grade potash are added, the whole thoroughly mixed, passed through a phosphate mill and screened and of wide and violent character would be thrown up in bulk, to remain until it is shipped, and then it is bagged in new quite natural any where within a week thrown up in bulk, to remain until it is shipped, and the treated acid-proof bags, and sent out in splendid shape. We are often asked, or ten days of the 11th. This is one of the why don't you run the goods when first mixed, right in the bags, and not go to the periods in which equinoctial hurrithe expense of treating the bags, as do other manufacturers?" "We are often asked if this is not a needless extreme, but we reply—it pays canes from the West Indies need not be

to make the best. Whilst there is some loss by evaporation by bulking, an additional expense coasts. in rebagging and an expense to treat the bags, when we remember that a farmer appreciates a good goods and in first-class mechanical condition, it pays to go to A regular Vulcan storm period is cenextremes, as it is impossible to make a first-class fertilizer otherwise; and by tral on the 16th covering the 14th to treating our customers right in their purchases, making the time of payment of 19th. The strong probabilities are that the bill to suit them, we have gotten a personal hold upon our trade.

"Now, in order that we might continue to be an up-to-date concern, it was threatening, unsettled, stormy weather necessary to have our own acid chambers and an acid phosphate plant, so as to will begin during the period 14th to 19th, be entirely independent of the trust, and we have gone in with another concern and run into the reactionary period cenand erected one of the most modernly equipped phosphate factories in the East, tral on the 20th to 23rd. If many active located at Canton. This will make our

Dissolved Phosphate

and supply the Chestertown factory, and instead of closing up our old factory, as many supposed, we will be in better shape than ever before, and will be worked vere seismic shakes in many parts of this harder than ever. We tell you all this, for when you know what we know about our business, you will not buy any ordinary fertilizer, but

T. R. HUBBARD & SON'S BONE FERTILIZERS astronomical conditions as exist at this time—general and violent storms, or the the Fertilizers that have made T. R. Hubbard & Son's Fertilizers famous. If, prolonged period of phenomenally hot, therefore, you are going to sow wheat this fall, and want a good goods and want to save money on your purchases, it will pay you to see us before placing your

is central on the 4th extending from the 2nd to the 7th. Signs of approaching change and storms will appear about the quantity whenever they paint. 3rd, weather will grow warmer in the west, the barometer will begin falling the same region, and cloudiness and rain you buy thin paint in a can with a paint pass to the eastward, and reaching a culminating crisis from the 5th to the 7th. Look for decided change to cooler eight gallons of L. & M., and mix six in the west as these storms pass east- gallons of pure linseed oil with it. ward, the cool, clearing weather following the storms to the extreme east.

Weather changes will come in rapid succession at this time, but we believe never grow shabby, even after 18 years. that dominant state of the weather will be warm above the average. The 9th, 10th and 11th are reaction storm days, a surprise to dwellers along our south

storms do not occur in the time covered by these two periods, there will almost Are You Hard to Fit? certainly be a prolonged spell of unseasonably warm weather, followed by seastronomical conditions as exist at this brassy weather, ending in many earth-

quakes and seismic disturbances. The last storm period for the month is central on the 27th, extending from the 25th to the 30th. We predict that this period will bring a series of severe storms, and that the crisis of these disturbances will fall on and touching the period a sweeping high barometer out of 10170 the northwest will bring a severe dash 7 of autumnal weather, with high boreal DEPORT OF THE CONDITION winds, clearing skies and frost in many places in northern and central states. The final culmination may not reach most sections before the opening days of October, but such change is almost a disturbance which is central of Septem-

Why?

Why is a yacht called "she"?

ber 30th.

She has a waist line. She carries a spanker. She has a bow (beau). She is seen at her best in a breeze.

She sails to win. She uses a puff to the best advantage. She is alwaya tightly strung up. She sometimes shows her heels. She likes something to blow. She tries to beat her rival.

She likes to hug the course. The tighter she is held the better behaves.—Boston Post.

Large Potato Shipments .- Mr. David P. Smith has just concluded his shipments of potatoes grown this season on about 48 acres. They foot up a little above 8,000 bushels and have netted Mr. Smith \$1600 clear of all expenses, part of the expenses being \$6.25 an acre for the land paid in cash. Next year Mr. MARYLAND. Smith propose to cultivate extensively leased from 75 to 80 acres for that purpose. The sooner farmers learn that than purely wheat and corn the better e for the landlord as well as the Mr. Smith says that prices for potatoes have not been as good this year their cultivation to undertake it again next year on a more extensive scale. Is there a farmer in the county who has cleared \$1600 on \$48 acres? If there is us hear from him-Centreville
