## Prices Pulsating With Economy

The new goods-dainty, delicate, desirable-the harbingers of this season's fashions, fads and fancies. Without style, a garment is nothing in the eyes of any self-respecting woman. She looks, also, for service and economy. Some greater writer has said: "The nearest approach to heaven on this earthly sphere is experienced by the woman happy in the knowledge that she is well gowned." And it is hardly necessary to say that the trinity, "Style, Service, Economy," are important features in her dress, skirt, waist, or whatarticle of wear she may be looking for. Journey hither, to the benefit of your pocket-book.
