

For Men Women

We'll let you pick from the choicest styles of the season and you pay no more than for the inferior kind. Every man likes to buy from a concern that's successful. We've grown in one year from a small store to the largest Department Store on the peninsula. With us it is not how much profit we can make on Clothing but how little we can sell it for, and that's what the people like. Is it any wonder we sell more clothing than five or six other stores put together. Look at the difference between other's prices and ours on the same goods.
