A " more appropriate present could not al be made his Royal Highness, and he will, doubtless, prize it highly. The national emblem of his vast empire, you will recollect, is a double-headed " eagle, but we will venture the assertion that this is the first live specimen ever seen. It goes to N. York this afternoon by the Adams' Express, and will be sent out thence by one of the early out-going steamers. d CROCKETT'S LOG CABIN.—On the Mobile and Ohio railroad, not far from Jackson, in Tennessee, says an m exchange paper, still stands the hum- C ble log cabin, eighteen by twenty T feet in size, built and occupied while u he lived in the district by the far- w famed David Crockett. Its logs are fi fast decaying, and desolation sur-k rounds it, but no traveler passes it b without an eager desire to look upon i the humble roof that sheltered one's of the truest representatives of the fa American pioneer character—a hero and an honest man. Near it is a s railroad station, called Crocket's sta- F

tion; around it, perhaps, will rise a l

town to perpetuate a name as famil-

iar to his countrymen as that of

Jackson.
