

I found 18 of the 20 bones about the same,

Friday. I got up a little before 9 o'clock. My wife called me about 8^{o'clock} (I wanted me to go & finish my digging). I did not get up when she called me but did a little before 9. We were at breakfast & Dr W. came into the kitchen. He came in & took a newspaper out & said if there any more news about Dr P. I told him I had not heard any more news about him. He said that he had just come out of Dr Hinchman's apothecary shop, & that Dr Hinchman said there was a woman saw a large bundle put into a Cab., & that she took the number of that Cab. - That they went to find the Cab & that it was all covered over with blood, that it was all bloody inside. I told him there are so many flying reports about Dr P. that we did not know what to believe. At the same time of the stairs. There were some men there who were bringing boxes from Dr Warrin. I was under the ^{anatomical} ~~study~~ of the room of Dr Holmes. This was in the forenoon - near Howard's room. Dr Henry Bigelow was there. - I had no attention for Dr Bigelow, but did for Dr Jackson. - I asked Dr B. if he knew of the suspicion then was against Dr W. He said he did - I told Dr B. I had commenced digging through the wall & I understood him to tell me to go ahead with it.
