

be any thought. I put the lamp in & put my head in & looked through, & saw three parts of a body which were open and there a coroner Pratt. I went up & waited till the Marshall, Glast & Dr. H. H. Hixson came then - after that I went through the hole with L & and he is taking them out - ~~They~~ all went down. So I crawled through the hole. The parts of the body were kept through the wall & laid on a board on the other side of it -

I don't think of any entry was made into the laboratory till the party came with Dr W. The remains were left below till the party came. I was left by the Marshall in the charge of the college in the mean time - The Marshall left us one but then in charge of the college. The party with Dr W. came down about 11 o'clock. - I was up at the front

door when the party arrived. L. told me they had come. I went with him up through the labo? & passed the door for him to get in

Some one called for the key of the privy door. I said that the Dr had the key of the - that the Dr. always kept it - that he (L) never had it. Dr. then pointed to a hook on wall & said it was hanging up there, stuck - weather took down a key & handed it to L. who L. went down to the privy & he tried the
