

He said I thought had of it at the time, but I  
don't know anything about it now - for I have written  
with Dr P & it is all over. - He had come with  
me with the check & told him the mortgage was on  
personal property & not on real estate. I made a  
remark that he had got to the City Club & told of  
Dr P. had been there. - I am willing now of  
Dr W. the night.

I did not even search for Dr W. till  
Tuesday -

On Tuesday 27, I went with Clapp there  
I thought to the College about 11/2 AM. - We went to the  
lower laboratory door leading for Dr. Stone's office, & the  
next to the room door & found both of them fast.  
- Then we went to lecture room door. I knocked  
on door - waited a while & then Dr W. came to the  
door. Clapp told him his business. - In the lecture  
room I asked Dr W. who was well he should be  
found Dr P. the morning. He said no one but Dr P  
& himself. I asked him the time of day, he said  
between papers 1 & 2 ok - We passed down to

lecture room. I asked Dr W. where he stood when he  
found Dr P. the morning, he pointed out the lecture  
room table in the place where he stood, it behind  
the table means an office end of it as he had had  
facing the students.

We then looked into back room. Dr W.  
had this as his private laboratory. He then pointed  
to the small room & said there is a desk & lamp by  
Chair remains. Dr W. & I went down back  
Clapp was fr<sup>d</sup> of us & got all papers &  
asked what place is this? Dr W. said it is Dr W's
