

private living. At the same time or a few
 we got in another room I believe you have not
 looked to, he op^d the door, & we kept our mittens
 very hard - Clapton then & May, by the power of
 I said we had blue things other we doing.
 - We looked at an depicting now vault - Then I
 I found down the way down under the building, then
 mine as far as he could go to the brick wall, to where
 a hole was open and found in the wall. Then
 was no hole there then. - He had a box with L.
 as to the plan,

I have some things been through the
 hole in the wall - & have made two examinations
 There is no access through the wall except small
 crevices - I will then found under one Tuesday of
 the area.

I discovered the 2 animals in the sea cave. I had
 been searching during the forenoon & afternoon in the
 rooms. No mammals been put into the sea cave
 before I got it to my knowledge. I think with the
 Hamilton Museum 6 or 8 of us been searching there.
 - I proposed to search any day on our part of the
 building. - I have known that there's mice had been found.
 I looked at the sea cave & supposed it was also to keep
 mammals. I took down one looked into the paper, open
 then into study. The labels looked freshly written; they
 did not look as if they had been there some while.
 After missing; part of them I did not take - but
 I took out about Mammals been in it. I then
