

put my hand into the bag & took out
a large hunting knife; opened it looked at it
then it up & put it in my pocket - I then
fell into the bag & felt something wild. I was
I had found something under Jan. I found
the bag was ~~under~~ side of the room - I then
found it over to the trunk of human body
with things in it - When the contents
came out the trunk was with the back up

- I ~~took~~ took the right side of the trunk
& I saw a hole in the left corner of
the trunk. The door was not scraped off
except by the hand, no stick was used.
Officer Putman took a stick to scrape the door
off. I remained the hole at the time I
saw & thought the knife I had in my
pocket would fit the hole, but will
but I did not try it - The chest is open
as it was open the trunk was turned out
but I had the paper on which on now it
I found one of the hiding.

There was found in the lower laboratory
a computer of two Woolen Blankets lying on the
table next to the window. - The computer
blankets were all new.

I remained in the room in charge
of them till 2^o of July. From then every day
at 5^o & remained till 7^o at night. The
