

I told Dr W. after this if he had any kind
of Aversive Chemate to Commanche which
was a family he had better wait till they
come to the land. I told the same to Mrs.
Prescott & Mr. Fairweather & that they had better
tell him.

The letter by Andrew, as
addressed to Miss Mary Ann Webster
dated "Monday Evening". —

I was weary & had to be in bed
one. I had said that last night to
Aunt of you all. I got my clothes off last
night for good time. It was a long time
before my feet broke for the time
I did wish I saw you

"You Mama get open the
" little bundle I gave her the other night, but
" to keep it just as she used to"

* There was the paper to which I
referred - as name for her name, it

" My tongue troubles me very much
" I I want have better it in my
" which the other night - it is painful
" and swollen affecting my speech somewhat"
