The coal was always taken in ^{3.} through
the directing room entry & through
the door having the hose funnel -
Charcoal, banks, & soft coal were
taken in through the door in
the partition to the coal closet
between L-ds rooms & laboratory
L- employed men to do it -
I bought charcoal at the door
this year & the man took it in
through lower laboratory - the neigh-
bors know the man as he often
come with coal -

Friday morning - I told Dr at his door in
hearing of his servant what I should
pay him after my lecture
I had also mentioned it in an open
note L-d took a week before
Dr. very polite & I was at his door not 5 minutes
