

Did you even see him  
fill a balloon?

Did you even ask him  
to let you take it down  
after his lecture & show  
it to your wife

Did you even fill & help  
him use his galvanic  
battery

Did his glass vessels con-  
taining liquids even  
break -

Did the contents spill  
Do you know any thing  
of a large glass tube he had  
did it even contain a  
large quantity of a blue  
or green liquid

Sulphate & Nitrate  
of Copper  
It was cracked & mended
