

The Dr. Ave^l will be, in addition to the
inconclusiveness of the alleged correspondence
before him upon, that it is not
satisfactorily proved that Dr. P. was ever
seen alive after he entered the Medical College

then consider all the proofs that
by address to him that he was seen
during the afternoon.

I note, the extreme difficulty of proving
a fact of this kind from mere casual
observations of persons not interested

Let us put as many persons
as we can in the afternoon, all
get present to him when he was
in the morning.

Again I^d - Perhaps the Govt may rely
upon the alleged conversation of Dr. P. with
Starkweather or the Govt - as being in the
nature of Confession

Dr. Curran will assist in explaining
the conversation - in connection with
the circumstances under which the
conversation took place.
