

Mr. John D. Steele, Chairman, Commission on City Plan (continued)

Whether or not such an ordinance is desirable is, of course, a legislative question for the City Council. Before sponsoring such an ordinance I would suggest that you inquire carefully into the experience of other cities. Unless a strong showing can be made you will find determined opposition to any proposal to make a new crime of a general practice of the public. Perhaps an educational campaign with police cooperation would accomplish the desired result.

Very truly yours,

(Signed) SIMON E. SOBLOFF

City Solicitor
