Reliable Testimony.

We call the attention of the reader to the following letter from President Smith, formerly of Wesleyan University, and now of Annapolis, Md.

MIDDLETOWN, Conn., Feb. 28, 1859. SETH W. FOWLE & Co. - Gentlemen: - I first made use of the Oxygenated Bitters some seven eight years since. Having suffered for twenty years from a form of dyspepsia, which was attended with a before. nervous headache, on an average of not less than one day in a week, I was induced, by the unpretending rec- Pills. ommendation of Dr. Green, "to try one bottle, and if no benefit was received to discontinue the use." The use of one bottle warranted a further trial, to the extent of some three or four, with a careful observance of the accompanying directions. The result was, an almost entire relief from the usual dyspeptic symptoms and their depressing, painful consequences. I believe these Bitters produced an entire change in the habits of my system, and upon the active energies of the digestive organs. I now deem myself as exempt from Dyspepsia as most persons. These Bitters have also been of setvice to other members of my family.

Very respectfully yours,

THEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting Sick Headache, of hepatic disease constituting Bilious Headache, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections.-Diseases of the heart are very frequently attended with Headaches; Anæmia and plethora are also an ctions which frequently occasion headache -Idiophatic Headache is also very common, being usually distinguished by the name of Nervous Headache, sometimes coming on suddenly in state of apparently sound health and prostrating at once the mental and physical energies, and in oth find ready relief in that established and sterling er instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking vomiting; under this class may also be named Neuralzia. For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remady, relieving the most acute pain in a few minutes, and by its subtle power eradicating the diseases of which Headache is the unerring index.
